- Review and approve teacher access requests.
- Manage school identity and staff access.

TEACHERS

Keep class records moving.

- Organize sections, subjects, and rosters.
- Record grades across three terms.
- Enter assessment scores and add learner comments.

STUDENTS AND FAMILIES

See progress in context.

- Register in an open class section.
- Review a personal grade report and results.
- Send feedback to the registered class adviser.

A dedicated school portal keeps school identity, class workflows, and student reports together.

FOR TEACHERS

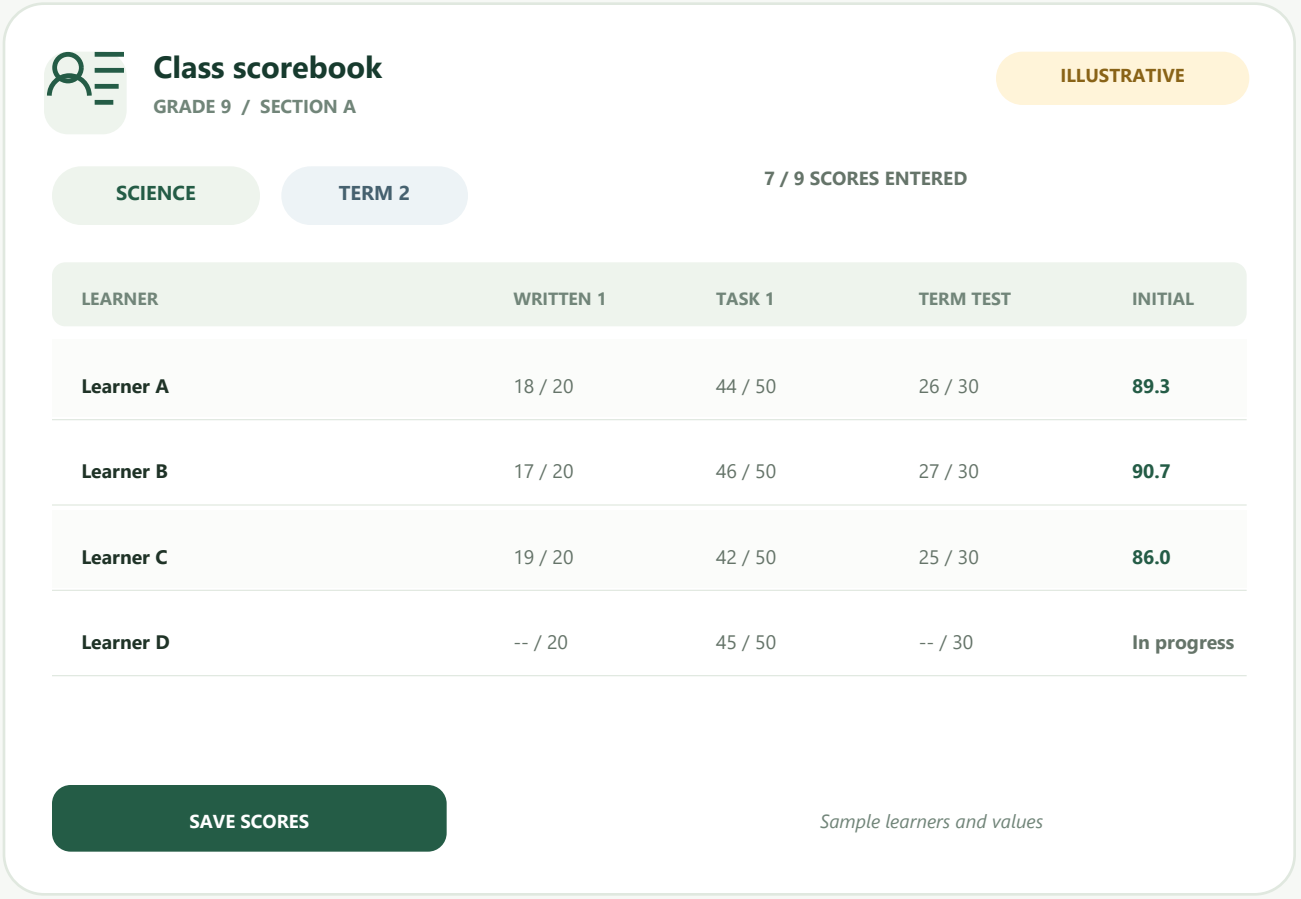

Assessment work, in context.

A class-wide scorebook brings assessment columns and student scores into one working view.

- Set up saved subjects and assessments for Term 1, Term 2, or Term 3.
- Group work into Written Works, Performance Tasks, and Summative Test/Exam.
- Enter class-wide scores and see initial weighted scores as entries are completed.

SCHOOL-SET WEIGHTS

Initial weighted scores are not official transmuted grades. Schools confirm approved weights and grading rules before official reporting.

FOR STUDENTS AND FAMILIES

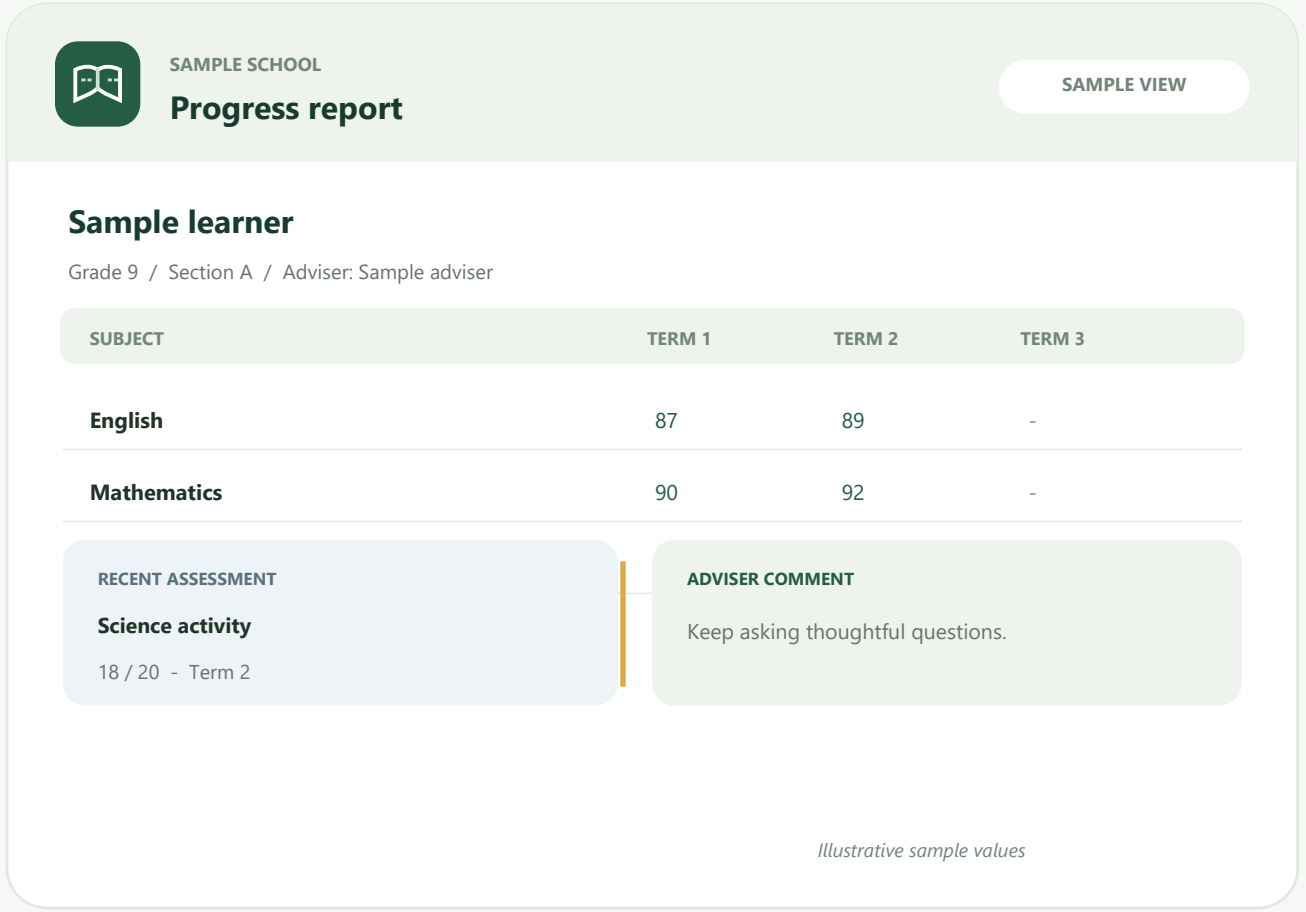

Make the report easier to read.

A student-specific view brings term grades, assessment results, and a teacher comment together in the school's portal.

- Students can revisit their report through the school's student portal.
- Grades are organized by subject and Term 1, Term 2, and Term 3.
- After a verified grade lookup, a parent or guardian can share feedback with the registered class adviser.

A CLEARER CONVERSATION

Bring the learner's progress and adviser feedback into the same school workflow.

FOR SCHOOL ADMINISTRATORS

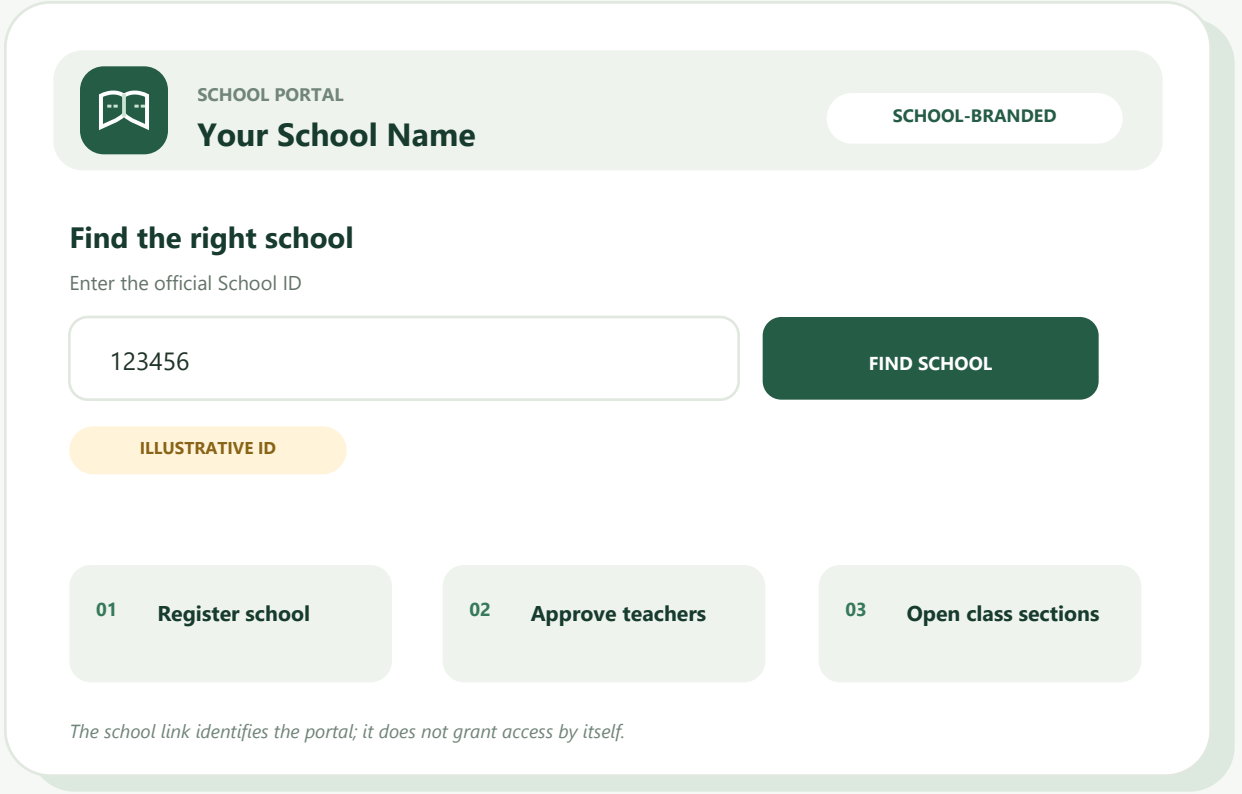

A dedicated home for each school.

Set up a school-branded portal and bring class workflows together under the school's identity.

- Register the school with its official details and logo.
- Approve teacher memberships before staff manage class records.
- Let teachers create sections and invite student registration.
